## Hello
My name is Alberto Silva and I'm an ambitious learner with an insatiable curiosity. In the past 6 years I've effectively adapted to my assigned mediums and roles. My experience includes 3D art, graphic design, web design, and most recently web development.

   In Dec 2010 I graduated Full Sail University with a Course Director's Award in environment modeling and texturing. I spent the next two years taking on freelance projects and learning web design. I landed a full time position as a web designer in 2013.

   I'm currently working as a front end developer at DealerOn with a focus on UI design and CSS architecture. I work closely with the development and design team; providing UI kits, mockups and live wireframes.

## Skills
I am an expert in: Bootstrap, HTML, CSS, and SASS. I am proficient in: jQuery and JavaScript. I employ these methodologies: BEM, ITCSS, OOCSS.

- Layout and Typography
- Responsive Web Design
- SASS/CSS Architecture
- User Interface Design

## Tools
The following have proven to be invaluable:

- Batch
- Illustrator
- InDesign
- Photoshop
- Bootstrap
- Cmder
- Git
- Gulp
- Sublime
- Wordpress
- Vim
- Paper
- Pencil

## Employment
WEB DESIGNER
DealerOn | 2013–2014

- Designed banners, graphics, and mockups.
- Ensure cross-browser compatibility.
- Helped land 2 million dollar contract through responsive web design product integration.
- Maintain HTML/CSS for over 500 sites.

INSTRUCTIONAL DESIGNER
DealerOn | 2014–2015

- Prepare course materials, pitch to managers, design and develop class site and projects.
- Review and critique student progress.
- Taught 13 employees (8 non-technical, 5 designers) HTML/CSS and Boostrap fundamentals through weekly classes. One non-technical is now a web designer while others are now leads of or promoted within their departments.

FRONT END DEVELOPER
DealerOn | 2015–Present

- Authored SCSS framework based on Bootstrap to extend functionality while retaining backwards-compatibility with sites using older versions of Bootstrap.
- Design and develop live wireframes.
- Develop engaging JavaScript UI functionality.
- Provide UI component library and style guide.
- Work closely with team of 14 developers and 8 designers under guidance of Art Director.

## Education
BACHELOR OF SCIENCE DEGREE
Full Sail University | 2007–2010

- Received Course Director's Award for excellence in 3D modeling and texturing.
- Work through rigorous deadlines in groups to accomplish an onslaught of projects that span the entire 3D pipeline.
